

SHAY GEYER

Entertaining is one of my favorite things to do and it was definitely a key factor when designing our dining room. I designed the custom Gracie wallcovering in metallic, gold, silver and copper. It allows for a beautiful neutral backdrop to layer in color and pattern into the rest of the room. Hand-sculpted metal butterflies from local artist Claire Crowe bring the wallpaper to life. They are scattered throughout the room and appear to be fluttering together to end up on a mirror above our fireplace. Our custom dining table allows for a host and hostess chair at each end so my husband and I can sit together during our dinner parties. Fresh flowers are a must for me when entertaining! The Botanical Mix is my go-to florist. Owner Shane Friesenhahn is so talented and his creations are so artistic and unique – it sets the tone for a stunning soirée!
