

SHAY GEYER

My fashion forward clients love to entertain which strongly dictated our design process for the living and dining areas in their home. Our goal was to create a welcoming and chic interior. The dining room comfortably seats 12 and the custom Swarovski chandelier is absolutely spectacular at night. An installation of contemporary mirrors is always a topic of conversation amongst guests. The abstract rug grounds the room in vibrant color. We designed their great room with multiple areas where they could add additional dining tables for parties and still have a luxurious sitting area for after dinner conversation.
